### Organic Curves

"Villeroy & Boch's Aveo freestanding tub is a great fit for spa baths with a modernist feel. This generous freestanding tub would definitely be a visual anchor for a master ensuite bath. Villeroy & Boch's proprietary Quaryl, made of quartz and acrylic, is solid, easy to clean and soft to the touch."

### ◀ Classic Glass

"Reminiscent of the 1920s and '30s, the Regency glass knob is like jewelry on doors and cabinets. The chrome and glass adds elegance to any room of your home. Used throughout the house, it will evoke a feeling of times past." **Details:** \$21; lookintheattic.com

### ▲ Twisted Tube

"The simplicity of this vanity fixture is what I love most about it. The graphite twist of the Troy Lighting Roxbury wall sconce gives it a transitional look, allowing it to fit into almost any design. The other thing I love is that it can be used in other ways, if you wanted to use it as a side sconce, you would turn the other direction – horizontally." **Details:** \$120-160; troy-lighting.com

### ◀ Iron and Ivory

"I love having a small bench in my master bath. Use it as a vanity seat, a comfortable bench for drying your feet or as a place to stack luxurious towels for your overnight guests. The patina of this metal bench and the ivory leather seat is a great look that keeps the bench from feeling too heavy in small spaces. Perfect next to your spa tub or under a dressing mirror. Top it off with a simple upholstered cushion for added comfort."
